education

2018-2021

**University of South Wales
Cardiff, United Kingdom**

First Class Honorous
Bachelor's Degree,
Media Production

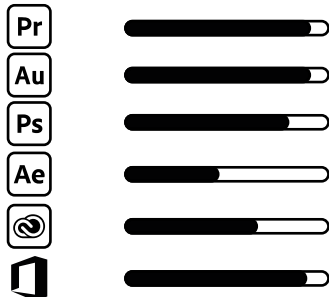

about

I'm a recent graduate of Media Production at the University of South Wales. In 2012 I started a personal media project, since then I have been heavily invested in this industry, always eager to learn new skills.

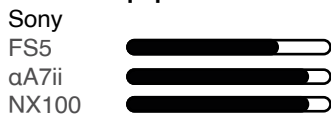

I pride myself on my innovative qualities and adaptability under stressful or unpredictable work environments. My experience of the production process spans from conception to completion, beginning at the scriptwriting stage all the way to the eventual release on the big screen.
